Air Master Systems, The **Green** Hood Solution

Environmentally Friendly & Economical

The Green Solution Hood with proprietary Neutrodine® Filtration Technology:
Save energy without compromising usage, performance or safety.

The Green Solution Hood—with the breakthrough Neutrodine® system by ErLab®—offers a revolutionary turnkey solution providing a variety of installation, operational and environmental benefits to virtually any laboratory. Compared to traditional fume hoods in operation today, The Green Solution Hood with Neutrodine® Technology enables labs to:

- Save energy while maintaining 100 fpm face velocity.
- Cut energy costs by 96% and reduce operating costs by 70%.
- Eliminate associated heating and cooling costs.
- Handle liquids and solids (including acids, bases, solvents and powders)—individually or together—with a single hood.
- Eliminate CO₂ emissions.
- Virtually eliminate installation costs.
- Operate safely without polluting and contaminating the environment.
- Maintain productivity without changing the way lab technicians work.
- All fume hoods are certified with a Life Cycle Payback. This certification by our lab assures researcher safety as well as economic feasibility
